#### **Key messages**

MTC's policy to aggressively grow lending at 30% p.a. during the COVID-19 outbreak has added pressure from asset quality as the economic recovery upcountry has been slow. Meanwhile, D/E at 3.4x in 2022 limits the company's ability to further grow loans at an aggressive pace. This is forcing the company to focus on asset quality and de-leveraging its balance sheet to build up capital base. At this level, we trim our 2023 earnings forecast 6% and leave our 2024 forecast unchanged. Applying PE 17x, we reach a new fair price of Bt42.00, from Bt45.00. We rate the counter Neutral.

# Considering lending rate hike offsetting higher credit cost

#### Even

Analyst meeting and outlook update.

#### **Impact**

#### Stretched balance sheet; growing loans slower in 2023

MTC's management guided for less bullish loan growth in 2023 with anticipated growth of 20% in 2023F (vs. +31% in 2022, +29% in 2021). The lower loan growth may reflect MTC's attempt to manage D/E in increase at a slower pace. Its D/E was around 3.4x in 4Q22 and would be around 3.8x by the end of 2023 if it grows loans 20% and dividend payout is 40%. Note that MTC's D/E rose sharply from 2.6x pre-COVID to 3.4x afterwards, as it grew loans an aggressive 30% p.a during COVID-19.

#### NPLs and credit cost to continue to rise

MTC is focused on laborers in the agricultural and upcountry economy, which are areas that have been recovering at a slow pace and the economic recovery driven by tourism has not bolstered income for the debtors in the agri-segment. The company guided that its NPLs continue to rise and it expects a peak NPL ratio of 3.5% in mid-2023F, assuming that the economic recovery continues. As such, credit cost should remain at a high level of 4% in 2023F. This guidance has us raise our credit cost assumption to 4%/3% in 2023/2024 (up from 2.5%/2.5%).

#### Considering loan rate hike to offset costs

Given the pressure from rising funding and credit costs, MTC guided that it may raise loan rates to offset costs. Furthermore, we think MTC would need to squeeze operating expense to bolster its bottom line. As such, we lower the cost/income ratio to 38% in 2023F (down from 39.5%).

#### Trimmed 2023F earnings 5%, TP-23F to Bt42.00 (from Bt45.00); maintain Neutral

We fine-tune our key assumptions by i) raising loan yield to 19%/19% (from 18.3% each) in 2023F/2024F, ii) raising credit costs 4.0%/3.0% (from 2.5%/2.5%), iii) lowering cost/income ratio 38.0%/38.5%. Applying PE 17x, we reach a new fair price of Bt42.00, from Bt45.00. We maintain a Neutral rating.

# Risks

Rising NPL and credit cost.

**Disclaimer**: The disclosure of the survey result of the Thai Institute of Directors Association ("IOD") regarding corporate governance is made pursuant to the policy of the Office of the Securities and Exchange Commission. The survey of the IOD is based on the information of a company listed on the Stock Exchange of Thailand and the Market for Alternative Investment disclosed to the public and able to be accessed by a general public investor. The result, therefore, is from the perspective of a third party. It is not an assessment of operation and is not based on inside information. The survey result is as of the date appearing in the Corporate Governance Report of Thai Listed Companies. As a result, the survey result may be changed after that date or when there is any change to the relevant information. Nevertheless, KGI Securities (Thailand) Public Company Limited (KGI) does not confirm, verify, or certify the accuracy and completeness of such survey result.

**Disclaimer:** The disclosure of the Anti-Corruption Progress Indicators of a listed company on the Stock Exchange of Thailand, which is assessed by the relevant institution as disclosed by the Office of the Securities and Exchange Commission, is made in order to comply with the policy and sustainable development plan for the listed companies. The relevant institution made this assessment based on the information received from the listed company, as stipulated in the form for the assessment of Anti-corruption which refers to the Annual Registration Statement (Form 56-1), Annual Report (Form 56-2), or other relevant documents or reports of such listed company. The assessment result is therefore made from the perspective of a third party. It is not an assessment of operation and is not based on any inside information. Since this assessment is only the assessment result as of the date appearing in the assessment result, it may be changed after that date or when there is any change to the relevant information. Nevertheless, KGI Securities (Thailand) Public Company Limited (KGI) does not confirm, verify, or certify the accuracy and completeness of the assessment result.

#### **KGI's Ratings**

Rating	Definition
Outperform (OP)	The stock's excess return over the next twelve months is ranked in the top 40% of KGI's coverage universe in the related market (e.g. Taiwan)
Neutral (N)	The stock's excess return over the next twelve months is ranked in the range between the top 40% and the bottom 40% of KGI's coverage universe in the related market (e.g. Taiwan)
Under perform (U)	The stock's excess return over the next twelve months is ranked in the bottom 40% of KGI's coverage universe in the related market (e.g. Taiwan).
Not Rated (NR)	The stock is not rated by KGI.
Restricted (R)	KGI policy and/or applicable law regulations preclude certain types of communications, including an investment recommendation, during the course of KGI's engagement in an investment banking transaction and in certain other circumstances.
	Excess return = 12M target price/current price-
Note	When an analyst publishes a new report on a covered stock, we rank the stock's excess return with those of other stocks in KGI's coverage universe in the related market. We will assign a rating based on its ranking. If an analyst does not publish a new report on a covered stock, its rating will not be changed automatically.
